

BROAD FELLOWSHIP.

Rabbi M. J. Gries' Reply to the Offer of Unity Church.

Some time since the trustees of Unity church tendered to Tiffereth Israel congregation the use of Unity church for worship during the erection of the new temple. That evidence of broad fellowship brought forth the following reply from Rabbi M. J. Gries, which has just been received by Mr. C. B. Lockwood:

"Your letter of recent date tendering to Tiffereth Israel congregation the use of your church for school and worship is being welcomed by our community with never ending expressions of good feeling. There is but one opinion of this, your open testimony of true fellowship. We are in receipt at the same time of a like invitation from one of our sister congregations. Because of the more convenient location, especially for the children attending our sabbath school, and also because we did not desire in any sort to interrupt your Sunday worship, it has been deemed advisable to accept the offer of our sister congregation.

"I wish to thank you most sincerely for the kindly and brotherly spirit you have manifested towards us. Be assured that your action has been most heartily appreciated. I trust that the future will unite us more closely in mutual effort for the upliftment of man and for a truer understanding of the one God, Father of all. On behalf of the board of trustees of Tiffereth Israel congregation. Yours very truly. Moses J. Gries."
